### Profile

---

I am a detail-oriented and motivated Manual Tester with a basic understanding of software testing and the software development process (SDLC). I have experience in writing test scenarios and test cases, and running test scripts to check if the application works properly. I focus on functional testing to make sure each feature works as expected. I am eager to learn more and grow in the testing field while helping deliver reliable and easy-to-use software.

### Education

---

|  |                             |

| Manual And Automation Tester    | 05/2025 |
| Tops Technologies Pvt Ltd Surat | Surat   |

### Projects

---

|  |                   |
|--|-------------------|
| Swag Labs  | 06/2025 – 07/2025 |
| Shopping Website   |                   |
| Swag Labs is a demo e-commerce website used for practicing manual testing. I created and executed test scenarios and test cases for various features, focusing on real-time user actions without using automation tools. The aim was to ensure smooth user flows, detect bugs, and verify the system's behavior for both valid and invalid inputs. |                   |
